

# EagleRE

## Electrolyzer

Applicable to fire rescue site power supply, residential use, hospital use, power grid peak regulation, data center equipment, industrial park, hotel use, etc

- **New electrode material, high efficiency electrolysis, stable hydrogen production, long service life**

Electrolyzer	
Weight	60kg
Diameter	230mm
Rated Voltage	20V
Rated Current	60A
Current Density	4000A/ m <sup>2</sup>
Cell Voltage	1.67V
DC Power Consumption	4.2Kwh/Nm <sup>3</sup>

\*Suitable for 20%-110% wide power hydrogen production
